## Student Spaceflight Experiments Program on SSEP Mission 19 to the International Space Station

Nanoracks

*As a teacher participating in the Student Spaceflight Experiments Program, you have helped inspire the next generation of scientists and engineers, who will surely take us to places none have gone before.*

*Teaching ... the eternal bond between young and old that is at its heart - joy.*

Ray Straw

SSEP Community Program Director, Anytown, USA

Dr. Jeff J. Goldstein

Director, Student Spaceflight Experiments Program

Jeffrey Manber

Managing Director, Nanoracks, LLC

SSEP is a program of the National Center for Earth and Space Science Education in the U.S., and the Arthur C. Clarke Institute for Space Education internationally. This on-orbit research opportunity for students is enabled through a strategic partnership with Nanoracks, LLC, which is working with NASA under a Space Act Agreement as part of the utilization of the International Space Station as a National Laboratory.
