

Certificate of Accomplishment

Presented to

in recognition of your participation in the

Student Spaceflight Experiments Program on SSEP Mission 13 to the International Space Station

By proposing an experiment to be conducted aboard the International Space Station
as part of this U.S. national student scientist initiative,
you have become part of the history of human spaceflight.
We hope your accomplishments will inspire you to keep reaching for the stars!

Jeffrey Manber
Jeffrey Manber

Managing Director, NanoRacks, LLC

SSEP is a program of the National Center for Earth and Space Science Education in the U.S., and the Arthur C. Clarke Institute for Space Education internationally. This on-orbit research opportunity for students is enabled through a strategic partnership with DreamUp and NanoRacks, which are working with NASA under a Space Act Agreement as part of the utilization of the International Space Station as a National Laboratory.

Certificate of Accomplishment

Presented to

in recognition of your participation in the

Student Spaceflight Experiments Program on SSEP Mission 13 to the International Space Station

By proposing an experiment to be conducted aboard the International Space Station, and through its selection as a finalist proposal as part of this U.S. national student scientist initiative, you have become part of the history of human spaceflight. We hope your accomplishments will inspire you to keep reaching for the stars!
