

Launch Viewing Location Maps

On Map 1 below (Click on the Map to Zoom), two launch pads are identified in black with an 'X': SLC-40 and LC-39a. We are launching from SLC-40. The locations with a 'check mark' are the best launch viewing locations. Both the Observation Gantry and Banana Creek are operated by the KSCVC. The Observation Gantry is unavailable for this launch. We are at Banana Creek, 6 miles from SLC-40. If the launch is scrubbed we will relocate to the best public viewing area available for this launch, which is Sand Point Park, and walk to the middle of the adjoining Max Brewer Bridge. The Bridge is 12 miles from SLC-40. See Map 2 for a closer look at the location of Sand Point Park and the Bridge. Playalinda Beach, which is 7 miles from SLC-40, will not be open to support an early morning launch. All other public launch viewing locations listed on the Public Viewing Sites document (downloadable below) are represented by blue makers.

This map provides a comprehensive overview of the Cape Canaveral and Titusville region. It highlights major transportation routes, including US Highway 1, US Highway 95, and various state roads like 321, 528, 520, 524, and 501. Key locations marked include Titusville, Port St John, North Merritt Island, Audubon, Cocoa, and Cape Canaveral. The map also identifies numerous parks and recreational areas, such as Marina Park, Sand Point Park, Titus Landing, Manzo Memorial Park, Rotary Riverfront Park, Kennedy Point Park, Kings Park, Kelly Park East, Westgate Cocoa Beach Pier, and several others. Launch facilities and space-related sites are also indicated, including the NASA Shuttle Landing Facility, Apollo/Saturn V Center, John F. Kennedy Space Center, KSC Launch Complex 39B, LC-39A, Observation Gantry, CCAFS Space Launch Complex 41, ULA VIF-A, SLC-40, Launch Viewing - on base access, Cape Canaveral Space Force Station, Cape Canaveral Lighthouse, Cape Canaveral Space Force Museum, Launch Complex 25, Exploration Tower, and Westgate Cocoa Beach Pier. The map is titled "Map 1" in the top left corner and includes a "My Maps" logo in the bottom left corner.
